For Men in Hot Pursuit of God's Best in Every Area of Life

"Every Man, God's Man will make you uncomfortable, inspire change, and get you pumped about taking new risks in your faith. This book is not about the resolution of a man's problems, it's about a personal resurgence of purpose. THAT excites me." —Rick Warren

In the company of women, we simply don't discuss the things we need to deal with as men.

God is calling all of us to eternal and essential connections. He is calling us to scale new heights and go to the next level. Strong connections with God and other men produces the character of Jesus Christ. Weak connections produce lukewarm results and many times lead to destructive cycles in our lives. But, how do you get connected? How do you stay connected in an everyday world so it's not just a "mountain top" experience—but a radical change in the way you do life?

Discover the power to change into the man you want to be—and the man God intended you to be—at the Everyman Conference. Join us for this life-changing event and learn how to:

- Use pressure situations for progress
- Stop self-destructive cycles
- Unleash powerful spiritual motivation
